neural arch  
neural canal  
neural spine  
notochord  
occipital condyle  
ocelli  
ocular muscles  
oculomotor foramen  
olfactory capsule  
olfactory sac  
olfactory sac  
opercular  
operculum  
opisthotic  
optic foramen  
optic foramen  
oral hood  
oral papillae  
orbit  
orbital process  
otic capsule  
ovary/testis  
palatine bone  
palatopterygoid  
palatopterygoquadrate cartilage  
parasphenoid  
parietal  
parietal bone  
pectoral  
pectoral depressor  
pectoral fin  
pectoral levator  
pelvic fin  
perichordial sheath  
phalanges  
pharyngeal bars  
pharyngeal gland  
pharyngeal gland  
pharynx  
pineal organ  
plastron

coronoid process  
dentary  
dermis  
dorsal lobe of caudal fin  
dorsal ribs  
dorsal spine  
endostyle  
epibranchial groove  
epidermal scutes  
epidermis  
epiphyseal foramen  
esophagus  
ethmoid plate  
excurrent siphon  
exoccipital  
external auditory meatus  
external gill slits  
external gill slits  
femoral  
femur  
fibula  
First levator palatoquadrate  
First ventral constrictor (intermandibular)  
foramen magnum  
frontal  
frontal bone  
gill lamellae  
gill pouch  
glomerulus  
glossopharyngeal foramen  
gonad  
gonads  
gular  
gular fold  
Hatschek's pit  
hemal arch  
hemal canal  
hemal spine  
hepatic diverticulum  
horny teeth  
horny teeth  
humer  
humeral  
hydrosinus  
hyomandibular  
hyomandibular foramen  
hyperpharyngeal ridge  
hypobranchial cartilage  
hypopharyngeal ridge

pleural series  
postotic process  
postanal tail  
posterior dorsal fin  
posterior dorsal fin  
posterior palatine foramen  
postorbital processes  
postorbital process  
postzygapophysis  
precerebral cavity
