

# New Offering this Spring:

## **Cog Sci 101 – Cognitive Science Seminar**

CogSci 101T is being offered for the first time this spring, in conjunction with the new Cognitive Science Minor. The course offers a look at the most forward-thinking research in the field of Cognitive Science, the interdisciplinary search for a scientific account of the human mind.

The course will feature several members of the CSU Fresno faculty from the Computer Science, Linguistics, Philosophy and Psychology departments presenting lectures on the state of the field in their areas, as well as numerous guest speakers from other universities who are involved in some of the most exciting new work on the study of cognition.

The course is:

- Wednesday nights, from 6-8:50
- Open to all, without prerequisites
- Credit/No credit only (so that students may take the course more than once)
- A core requirement for the new Cognitive Science Minor
