

COLLOQUIUM

Dr. Y. Gao, P. Ho, F. Ringwald, D. Singleton, C. Tenney, and D. Zhang
(Fresno State)

Faculty Introductory Colloquium

Abstract

Some faculty (Yongsheng Gao, Pei-Chun Ho, Fred Ringward, Doug Singleton, Charles Tenney, and Daqing Zhang) in the Department of Physics of Fresno State will introduce their research work. The research areas in the department include the Fresno State and CSU's ATLAS program at the Large Hadron Collider (LHC) of CERN, condensed matter physics program, astrophysics research at Sierra remote observatories, medical physics program, and theoretical physics program.

3-4 p.m., Friday, Sep. 9, 2011

McLane Hall 162

Refreshments will be served. All welcome!
