

# COLLOQUIUM

Arya Afshari, Michael Duncan, etc.  
California State University, Fresno

## Students Research Talks

### Abstract

Many students in the department of physics have been active in research. Several physics students of Fresno State will talk about their research work on various topics. The students and their research topics include: Arya Afshari: “Comparison of Pythia6 and Pythia8 Histograms for Various Particle Collision Parameters”; Michael Duncan: “Solutions to Gravity in 2+1 Dimensions” (Master Thesis Defense), etc. Refreshments will be served at 3pm.

3-4 p.m., Friday, May. 4<sup>th</sup>  
McLane Hall 162  
All welcome!
